Edita Food Industries S.A.E. (EFID.CA on the Egyptian Exchange & EFID.L on the London Stock Exchange), a leader in the Egyptian packaged snack food market, announced today its results for the quarter ended 31 March 2023, recording revenue of EGP 2,779.7 million, a 78.3% y-o-y increase. Profitability continued to improve despite a challenging operating environment as evidenced by strong performance on gross profit and net profit results. Edita's business model has proven its resilience in navigating economic headwinds, as the company carried over the momentum from 2022 into the new year. The company's agility and quick response to shifting market dynamics led to an exceptional performance in the first quarter of 2023. Through a series of strategies and initiatives, Edita's revenue was driven by both price and volume growth. In 1Q2023, the average price per pack reached EGP 2.69, up 40.8% y-o-y, and average price per pack increased 63.9% y-o-y, driven by direct and indirect price increases to alleviate the pressure on profitability margins. Capitalizing on its leading market position and brand equity, the company maintained strong demand for its products despite the migration to higher price-points. On the volumes front, Edita saw a 34.4% y-o-y increase in total packs sold to 1,034.5 million, with cake and biscuits being the primary contributors to volume growth in 1Q2023.

In 1Q2023, gross profit reached EGP 879.7 million, up a significant 58.0% y-o-y, driven by price increases and manufacturing overheads (MOH) efficiencies. Gross profit margin was squeezed recording 31.6% in 1Q2023 versus the 35.7% booked last year due to the devaluation affected the company's cost base. In 1Q2023, cost of sales reached EGP 1,619.0 million, doubling year-on-year due to significant increases in the cost of direct material components. MOH declined to 9.0% as a percentage of sales in 1Q2023 compared to 10.6% in 1Q2022 on the back of economies of scale and further efficiencies.

Total SG&A for 1Q2023 stood at EGP 391.9 million, up 33.9% y-o-y; however, SG&A as a percentage of total sales decreased to 14.1% compared to 18.8% in the first quarter of last year due to operational leverage.

EBITDA for the quarter recorded EGP 527.6 million, up 79.8% y-o-y, with a stable EBITDA margin of 19.0% compared to 19.0% in 1Q2022. Improved EBITDA was supported by SG&A efficiency and a high operating leverage.

In 1Q2023, net profit grew an impressive 153.5% y-o-y to EGP 375.4 million with an improved net profit margin of 13.5% compared to 9.5% in 1Q2022, supported by strong performance down the income statement. Edita also benefitted from a EGP 47.1 million gain due to the revaluation of its USD cash position during the quarter.

Edita recorded gross export sales of EGP 238.0 million, up by a strong 204.0% y-o-y and contributing 9.0% to total revenue in the quarter compared to 5.0% in 1Q2022. In USD terms, export sales booked USD 7.9 million, up 66.2% y-o-y.

As of the end of 1Q2023, Edita Morocco captured a 11.4% market share and is set to grow further this year as it capitalizes on the addition of its new Twinkies production line and expanded capacity.

Operational Developments

Introducing innovative and differentiated products that cater to the evolving tastes of consumers will continue to be a focal point for the company this year. In the first weeks of 2023, Edita launched Molto Magnum Mix in three flavours: chocolate and cream, caramel and cream as well as strawberry cheesecake and cream. The product was offered in two sizes, single serve croissant and full size croissants, both retailing at EGP 10 per pack. Furthermore, Edita rolled out Molto XXL Plus, a new variation of the popular Molto XXL with additional filling. In April, the company launched Oniro Coated Lava, a chocolate and vanilla biscuit filled with hazelnut cream and coated with chocolate. The product is retailing at EGP 5 per pack and is in line with the company's strategy to continue diversifying its product portfolio.

In March, Edita unveiled its new branding and logo reflecting its accelerated growth and redefined strategy focusing on product diversity and regional expansion. The new logo, which has been rolled across the company's products and marketing materials, captures the notion of diversity, growth, teamwork and the richness of the portfolio.

Edita was able to mitigate the effects of global inflationary pressures and supply chain disruptions through its long-standing relationships with global and local suppliers. The company is navigating the challenging operating environment by implementing a series of initiatives including widening the price spectrum across the whole portfolio, product reconfiguration, price adjustments and migrating consumers to higher price points through direct and indirect price increases.

Overview of Segment Performance

On a segment basis, Edita's consolidated top-line grew 78.3% y-o-y, with revenue at five of the six segments benefitting from a combination of higher prices and volumes. Growth in the cakes segment was driven by a 54.8% y-o-y increase in packs sold coupled with a 38.7% increase in average price per pack. At the bakery segment, revenue has recovered following multiple rounds of direct price increases over the past year. Consequently, revenue grew by 66.7% y-o-y in 1Q2023 to EGP 767.5 million on the back of a 23.0% y-o-y increase in volume sold and a 35.6% y-o-y increase in the average price per pack. Meanwhile, revenue at the wafers segment grew 19.1% y-o-y to EGP 289.4 million as the average price per pack increased by 31.3% y-o-y offsetting a 9.3% y-o-y drop in packs sold. Revenue at the candy segment grew 39.3% y-o-y to EGP 61.6 million in 1Q2023, as a 69.7% y-o-y increase in volume sold outweighed the 30.0% y-o-y decrease in average price per pack. Finally, revenue at the biscuits segment fell 33.0% y-o-y to EGP 9.5 million in 1Q2023 as the volume of packs sold decreased by 33.4% y-o-y and average price per pack remained relatively stable year-on-year.

Consolidated gross profit rose 58.0% y-o-y in 1Q2023 to reach EGP 879.7 million with year-on-year gross profit growth recorded across all segments, with the exception of biscuits. MOH efficiencies along with pricing strategies and portfolio optimization helped mitigate the impact of rising costs.

The cakes segment recorded a year-on-year gross profit growth of 84.7% in 1Q2023 with a gross profit of EGP 488.6 million and a GPM of 32.3% compared to 37.6% in 1Q2022.
